

## Prayer to God Before an Interview

Father, I'm about to face a challenging interview.

First, thank you for this opportunity. Thank you that you care to provide for my needs and that You are working to place me in the right opportunity. I know You are looking out for my best interest and have a right position for me.

If this is the right position, then make it clear to me and those making the hiring decision. Prepare the time and tone of our meeting. Help me to be the natural "me" that you created. Give me a peaceful and sharp mind. Bring to my memory all the relevant knowledge and wisdom. Let your joy and contentment flow from my words. And whatever the result, let this process be a blessing to those who review my case, me, and my family.

Lord, I receive your peace, and I trust you to work in and through this interview process. If this the right fit, then let nothing stand in the way. If not, then close the door and lead me to the next step.

In Jesus's name I bless those who will be conducting this interview. Give them wisdom, peace and rest.

I receive now your promise—"I will never leave you or forsake you!" I believe this and oh, do I need it. I don't go into this interview alone. You are with me. And with that confidence, help me to feel that peace.

In Jesus's name I pray.

Amen
